## PRONOUNCES NEGRO'S DEATH SENTENCE

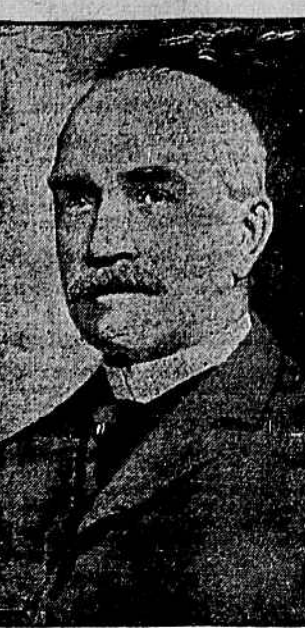

Judge Walter A. Watson Seals Doom of Chester Lady's Assailant.

[Special to The Times-Dispatch.]  
CHESTERFIELD C. H., VA., September 11.—Judge Walter A. Watson, at 11 o'clock this morning, pronounced the death sentence on the negro William Harris, who, on last Monday was convicted of attempted criminal assault on a young lady of this county. Harris seemed unperturbed, though rather sullen on exiting in his crime. He seemed to fall to appreciate the enormity of his crime, and as well the solemn words of the judge which sealed his doom. Some forty or more people, including some young Richmond people from the neighboring hotel, heard the sentence pronounced, but the only show of feeling was from the audience and the jury box, and not from the prisoner at the bar. The judge spoke most impressively. He characterized Harris's crime as incomparably the most atrocious known to man. The annals of slavery in the South, he said, gave no instances of crimes so black as that of which this man was convicted, which made him a disgrace to the human species and unworthy of human sympathy. The judge commended the people of Chesterfield for their self-restraint and conservatism in allowing the law to take its course, rendering a change of venue and military force unnecessary. Harris was remanded to jail to remain until Friday, the 18th of October, to be on that day hung by the sheriff between sunrise and sunset.

## The last hanging in this county was done about thirty-one years ago, when Hilary Page, a colored youth, was hung for arson.

## S.S.S. KILLS THE GERMS

When the germs of Malaria get into the blood they destroy the rich, nutritive qualities of this vital fluid and reduce it to such a weak, watery condition that it is unable to furnish the system with the nourishment and strength necessary to keep it robust and healthy. The complexion grows pale and sallow, the appetite fails, digestion is deranged, a bilious condition of the system is set up, and often chills and fever make life miserable for the person in whose blood this insidious poison has taken root. There is but one way to rid the system of Malaria and that is to purify the blood of the germs of the disease, and S. S. S. is the remedy to accomplish this. It goes down into the circulation, destroys the germs, purifies and strengthens the weak, watery blood, making it a rich health-giving and health-sustaining stream, and makes a lasting cure of Malaria. Malarial persons will find S. S. S. not only a prompt remedy but a pleasant acting one, as well as certain cure for this debilitating disease. Besides removing the cause of Malaria S. S. S. builds up every part of the system by its tonic effects. Book on the blood containing information about Malaria, and any medical advice desired free to all who write.

The exercises of the society to-night were most interesting, and were attended by a large gathering of visitors from the town and from a distance. ## TIGHTENING COILS ABOUT TOM ARCHER

Police Add More Circumstantial Evidence to Connect Him With Mrs. Rorschach's Murder.

NORFOLK, VA., September 11.—Thomas Archer and Horace Lee, the negro arrested as suspects in the murder of the wife of Naval Lieutenant Frank Rorschach, who was shot down with his own pistol by an unknown burglar early yesterday, were to-day held without bail by Mayor Reed, of Portsmouth until after the inquest Friday.
